Learn about the physician speakers on the reverse side

Dr. K. Nicole Weaver, Genetics

"My clinical expertise lies in the areas of cardiovascular, craniofacial and biochemical genetics. I am co-director of the Cincinnati Children's Cardiovascular Genetics Clinic, which provides care to children and adults with diagnoses, such as Marfan, Loeys Dietz, Williams and vascular Ehlers Danlos syndromes. I also see patients in the Cincinnati Children's RASopathies Program."

MD: University of Alabama, Birmingham, AL, 2009. Residency: Pediatrics and Medical Genetics

Cincinnati Children's Hospital Medical Center, Cincinnati, OH, 2014

Dr. Darcy A. Krueger, Neurology

"I am a neurologist who treats patients with conditions such as tuberous sclerosis complex, neurofibromatosis and RASopathies. Many rare genetic diseases affecting the nervous system are first identified in children, but they don't stop in childhood. As a result, I care for patients of all ages, including adults affected by these conditions."

MD: Saint Louis University School of Medicine, St. Louis, MO, 1995-1997; 2000-2002.

PhD: Saint Louis University Graduate School Biochemistry and Molecular Biology, St. Louis, MO, 1997-2000

Dr. David F. Smith, Otolaryngology & Sleep Medicine

"I am board-certified in otolaryngology (ear, nose and throat) and sleep medicine. My clinical focus is on diagnosing and treating upper and lower airway disorders, obstructive sleep apnea syndrome and other sleep and circadian conditions in children."

PhD: University of Virginia, 2000-2005.

MD: Medical College of Virginia, 2005-2009.

Residency: Otolaryngology-Head and Neck Surgery, Johns Hopkins Hospital, 2009-2014.

Fellowship: Pediatric Otolaryngology-Head and Neck Surgery, Cincinnati Children's Hospital Medical Center, 2014-2016; Sleep Medicine, Cincinnati Children's Hospital Medical Center, 2016-2017

Dr. Ana Catalina Arce-Clachar, Gastroenterology, Hepatology, & Nutrition

MD: Universidad de Ciencias Medicas, Costa Rica.

Residency: Cleveland Clinic, Cleveland, OH.

Fellowship: Cincinnati Children's Hospital Medical Center, Cincinnati, OH

Interests

Pediatric gastroenterology; NASH (non-alcoholic steato hepatitis); IBD (inflammatory bowel disease); general gastroenterology disorders

Services and Specialties

Gastroenterology GI, Steatohepatitis

Dr. Chet R. Villa, Cardiology, Heart Failure & Transplantation

"At Cincinnati Children's, I care for children with complex medical needs and severe heart disease. This includes children with Duchenne muscular dystrophy, RASopathies, and those in need of ventricular assist device therapy and heart transplant.

My research is focused on finding ways to provide care to children and young adults with heart disease who have limited access to advanced therapies."

MD: University of Cincinnati College of Medicine, Cincinnati, OH, 2007.

Residency: Pediatrics, Cincinnati Children's Hospital Medical Center, Cincinnati, OH.

Certification: American Board of Pediatrics, 2010; Pediatric Cardiology, 2014
